

The EAGLE™ PT-BB lens controller / camera controller is a valuable system accessory.

The unit is basically a pan tilt head without drive motors; it has full lens control and optionally, camera control.

It will control both standard types of lenses, either servo drive (teleconferencing) type, or DC drive (CCTV) type. Both with full preset recall capability.

With the PT-CCB-101 camera control, it will also control any Hitachi camera remotely from an Eagle controller or from Eagle soft-

EAGLE® PT-BB Lens control/camera control unit

Eagle® system compatible

On board RISC microprocessor controlled

Small size allows flexible system configuration

Control of both teleconferencing drive or DC drive lens types

Use of EPROM's allow easy future software upgrades

Five pin input connector for connecting to Eagle power and data lines

All needed mating connectors are included

Uses standard Eagle 24VDC power supplies

PT-CCB-101 chipset for camera control of most Hitachi, Sony, Panasonic, JVC cameras.

ware.

All of the same camera control functions available using a pan tilt head are available from the PT-BB with PT-CCB option.

The PT-BB also provides 12VDC power to the attached camera, so a separate camera power supply is not required.

SPECIFICATIONS

Uses RS-485 communications for interference free operation

Requires 24VDC power from standard Eagle power supplies (not included)

Status LED for power and communication status feedback

Connectors for camera power, camera control, lens control. Cable harness for powering camera and camera control included (when required if camera control option is chosen).

Includes 5 pin input connector set.

DIMENSIONS

224mm W x 140mm D x 50mm H

(8.80"W X 5.50"D X 2.00"H)

OPTIONAL ACCESSORIES

PT-PS-1 power supply
